

## Seminar

# Engineering applications in health care

**Monday, September 28, 2020**

**11:00 - 12:00**

Aula Magna, floor -1

Centro Direzionale, Isola C4, Napoli

### *Speakers:*

*11:00 - 11:30: Prof. Giorgio Buonanno: «Trasmissione aerea del virus SARS-CoV-2 negli ambienti chiusi» (seminario in Italiano).*

*11:30 - 12:00: Dr. Salahudeen Mohamed: «Engineering techniques for optimizing human eye surgical procedures and air quality in operating rooms» (seminar in English).*

Due to Covid-19 restrictions, the seats are limited. Therefore, in order to participate to the seminar in person, please send an e-mail to: [alessandro.mauro@uniparthenope.it](mailto:alessandro.mauro@uniparthenope.it).

It is also possible to access the seminar via web, by [clicking here](#).

Prof. Giorgio Buonanno is Full Professor of Fluid and thermal science (Fisica Tecnica) at the Università degli Studi di Cassino e del Lazio Meridionale.

Dr. Salahudeen Mohamed is a EUROfusion research fellow at the UK Atomic Energy Authority, PhD in Energy Science and Engineering at the Department of Engineering of the Università degli Studi di Napoli "Parthenope" and former post-doc in the same Department.
