

ESU 2019 CONFERENCE AND DOCTORAL PROGRAMME ON ENTREPRENEURSHIP

The ESU 2019 Conference and Doctoral Programme will be held in Naples (Italy) from the 8th to the 14th of September 2019. It will be organized by University of Sannio, in partnership with the University of Naples Parthenope and the University of Campania Luigi Vanvitelli.

Since the beginning, the main idea of the ESU Programme is to combine scientific sessions and cultural events allowing participants to discover local culture and heritage. Supervisors, researchers and PhD students from international institutions, active in entrepreneurship research and education, come together to share experiences and create new international networks, in a friendly environment.

The **Doctoral Programme** is organized with plenary sessions alternated with group discussions and presentations.

The plenary sessions will be of two different kind:

- » *Hot topics in entrepreneurship research*: plenary sessions on specific topics
- » *Conducting & publishing research in entrepreneurship*: plenary sessions on methodology

The group discussions and presentations will be split into 3 groups:

- » *Early stage group*: students that haven't started their PhD studies and PhD students in their first year of doctoral studies. Students in this group present their research proposal.
- » *Work in progress group*: PhD students that are in the middle of their PhD studies. Students in this group present their early phase research.
- » *Mature group*: PhD students that are in their end of the PhD process or PhDs that have finalized their thesis. Students in this group present their results papers.

The grading system, with the tasks for PhD students before, during and after the Programme, is available on the website: <http://www.esu-network.eu/esu-conferences/>

Beside the Doctoral Programme, the **ESU Conference** offers regular conference tracks open to all attendees. All the presentations will take place on Conference Day – Wednesday, 11th September 2019. In particular, they are open to:

- » *Postdoc*: they hold a postdoctoral position. They are invited to present their own paper and perform as discussant in conference sessions. They don't have specific tasks before and after the Conference. They also may be invited to act as junior coaches for PhD students and they have some dedicated group presentations.
- » *Professors*: they hold a permanent academic position. They are invited to present their own paper in Conference sessions. They don't have specific tasks before and after the conference. They may be invited as senior coaches for PhD students in the group sessions and act, in some cases, as keynote in plenary sessions.
